

# BXST

Voltage protector  
Model No. BX-V009-N

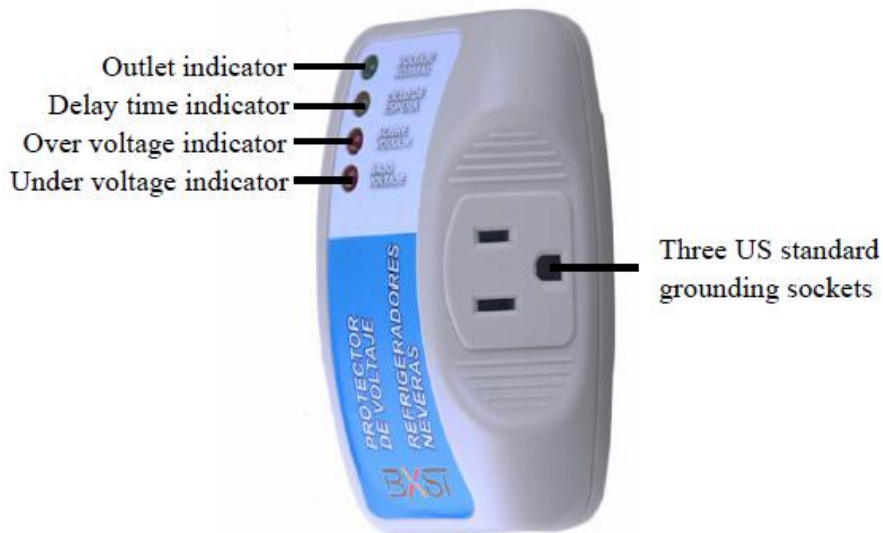

## Introduction

BX-V009N is a hot-sold voltage protector in South America. It's used for Freezer, refrigerator and home appliance which power is less than 1440W.

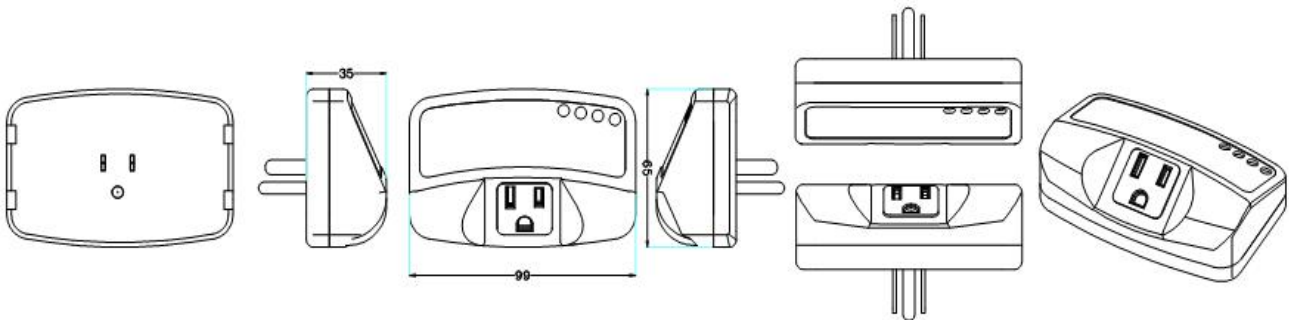

## Specification

Working voltage	120VAC/50HZ-60HZ
Under voltage	90VAC
Over voltage	140VAC
Working current	12A ( 7863BTU ) 1440W MAX
Delay time	30secs/3mins
Joule	140J
Temperature	-5°C ~ +55°C
Weight	100g
Size	100*65*37mm
Material	Flame retardant PC
Package	48*47*37cm/double blister/50pcs per carton

## Features

1. Over/Under Voltage Protection: When the voltage exceeds the limit, it will automatically cut off the power to prevent the electrical appliances being damaged for too low or too high voltage.
2. Lightning Protection: Instantaneous voltage exceeds the limit, the product will protect the electrical appliance against excessive voltage damage automatically and quickly.
3. Phosphor Bronze: with good electrical conductivity, corrosion resistance and wear resistance.
4. Flame Retardant Material: reach the level test experimental standards of UL94-5VA.

## Warning

- ※ The total power of connected electrical equipment shall not exceed the rated power.
- ※ Do not use this product in damp or not ventilated environment.
- ※ Non-professionals do not open, change, repair the product.
- ※ Poor contact at the front or poor contact of the plug may cause a danger.
